

Veterinary ultrasound

D8 Vet

Q7 Vet

Z3 vet

D8Vet

Q7 Vet wireless ultrasound

Net weight: 135g

Size: 140*40*25mm

scanning time : >=4 hours continuous

Connection Type: WiFi &USB

Supporting 3 OS: Android, Windows, iOS

Supporting devices: Android tablet or smart phone

Windows PC, IPhone and IPAD.

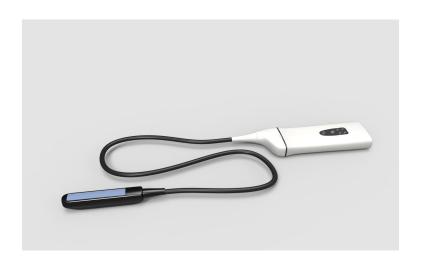

Medical process

Probe Image	probe type	Model	Frequency Range (MHZ)	Radius of Curvature	Application
	Convex	C5-2Fs	2-5	R50	Large animal abdomen , reproduction and cardiac
	Convex	C5-2Ks	2-5	R60	Large animal abdomen and reproduction
	Linear	L11-4Ks	6-11	L40	Small animal abdomen , musculoskeletal
	Linear	L11-4Gs	6-11	L40	Small animal abdomen , musculoskeletal
	Micro-convex	C8-5Ks	5-8	R15	Small animal abdomen and cardiac
	Transvaginal	E10-4Ks	5-8.5	R10	Large animal reproduction
	Linear Rectal	L10-4Vs	4-10	L64	Large animal reproduction
	Rectal Convex	C10-4Vs	4-10	R50	Large animal reproduction

D8 Vet wireless ultrasound

WIFI/USB

Low power, continuous scanning for 6-8 hours

Anti-interference, suitable for various terminal devices

Net weight: 220g

Size: 170*56*22mm

Multi probes can meet different applications

D8 pocket wireless ultrasound

Probe Image	probe type	Model	Frequency Range (MHZ)	Radius of Curvature	Application
	Convex	C5-2Ks	2-5	R60	Large animal abdomen and reproduction
	Linear	L11-4Ks	6-11	L40	Small animal abdomen , musculoskeletal
	Linear	L11-4Gs	6-11	L40	Small animal abdomen , musculoskeletal
	Micro-convex	C8-5Ks	5-8	R15	Small animal abdomen and cardiac
	Linear Rectal	L10-4Vs	4-10	L64	Large animal reproduction
	Rectal Convex	C10-4Vs	4-10	R50	Large animal reproduction

Z3 Vet USB ultrasound

Connection Type: USB

Supporting 2 OS: Android, Windows

Supporting devices: Android tablet or smart phone, Windows PC.

Scan time: depending on the display device that you connect

UltraLow power consumption less than 1.8W

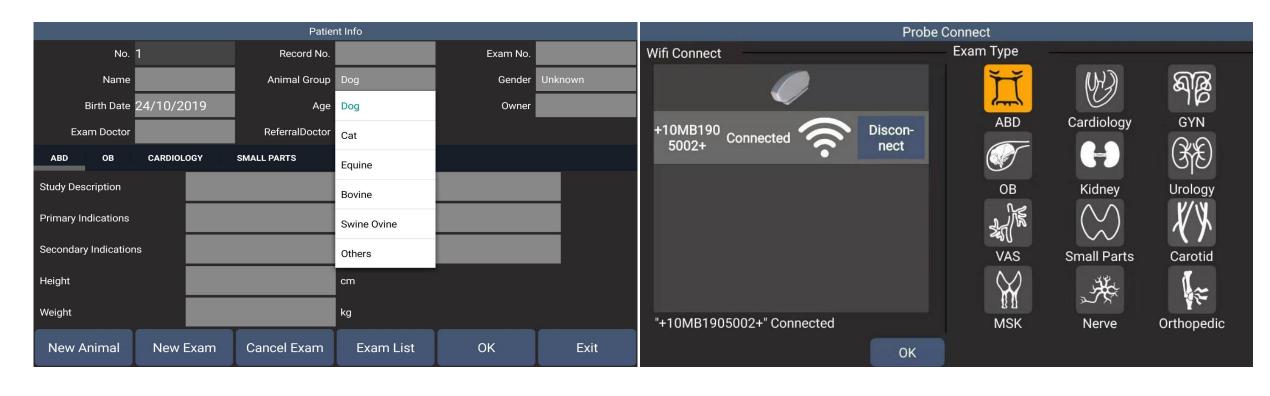

Probe Image	probe type	Model	Frequency Range (MHZ)	Radius of Curvature	Application
	Convex	C5-2Ks	2-5	R60	Large animal abdomen and reproduction
	Linear	L11-4Ks	6-11	L40	Small animal abdomen , musculoskeletal
	Micro-convex	C8-5Ks	5-8	R15	Small animal abdomen and cardiac
	transvirginal	E10-4Cs	5-8.5	R10	Large animal reproduction
	Linear Rectal	L10-4Vs	4-10	L64	Large animal reproduction
	Rectal Convex	C10-4Vs	4-10	R50	Large animal reproduction

Veterinary Software

- a) Supporting veterinary ultrasound Q7Vet D8Vet and Z3Vet series via wifi/usb
- b) Veterinary software is now available on Android and windows devices, IOS veterinary software is developing.
- c) 6 Animal types: dog/ cat /horse/ Bovine/Swine/ others

d) 12 normal exam types and presets

Veterinary Software

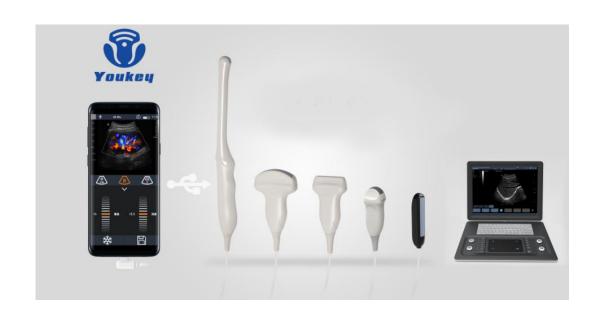

- e) OB exam has full related measurement box, the other exams only have simple measurements (distance area angle).

 Bodymark is available.
- f) Support report edit and print

Transducer type: convex, linear, microconvex, transvirginal, transrectal

Frequency: 2~11MHz

standard probe size Dimension: B \BM\C\Power\PW ScanMode:

The smartphone which is connected with USB Probe, can share the

realtime scanning images with other smart devices via

WIFI.

Accessories

a) Customized notebook

- High resolution 10.1" display screen 10.1" touch control panel
- 6000mAh Battery
- 32G storage inside, micro SD extend up to 64G
- 2 TypeC interface for charging adapter or USB Probe Z3Vet
- WiFi 802.11 a/b/g/n for internet or wireless Probe D8Vet/Q7 Vet
- Simcard for LTE/3G/2G network
- Android 6.0 OS

Accessories

Wristband

Beltpocket

Bluetooth remote control

Probe introducer

AR Glass

Fix your smart phone on your wrist, make the veterinary use easier

Beltpocket on your waist, taking Gel-Bottle, smartphone and wireless/usb probe easily.

Small size
Connect to smart device,
control the parameters of
SonoiQ

Introducers for Rectal Probe Arm-Free Scanning

Wireless ultrasound can be connected to the Google glasses

Application
